Postdoctoral Fellowships in Statistics

Applications are invited for a Postdoctoral Fellow in the Department of Mathematics and Statistics at McMaster University. This fellowship provides an opportunity to engage in research in statistics, with a limited amount of teaching, and they are particularly suitable for talented statisticians who have recently completed their Ph.D. or will complete their Ph.D. before September 1, 2019. Positions are tenable for two or three years, depending on the research project and the available funding. To learn more about the department, please visit our web page.

The fellowships are open to candidates of any nationality and selection will be based upon the candidate’s research potential and fit with one of the active research groups in the department. The successful candidates will work under the supervision of Dr. Paul McNicholas, Canada Research Chair in Computational Statistics. Applicants with research interests covering any area of computational statistics will be considered. The fellowships normally start on September 1, 2019 and provide an annual stipend salary of $45,000. In order to receive full consideration, candidates are required to apply for these fellowships by using the MathJobs website by January 1, 2019. See our advertisement at www.mathjobs.org.

Applicants should provide at least three letters of recommendation. At least one of these letters should report on the candidate's teaching abilities. Preferably these letters will be submitted through the MathJobs website (see above); they may also be sent directly to:

Dr. Matheus Grasselli, Chair  
c/o Postdoctoral Fellowship Applications  
Mathematics & Statistics  
Hamilton Hall 218
