Notes Applicable to the Honours Biology & Environmental Sciences Programs

Honours Biology and Environmental Sciences is a flexible program that enables students to obtain an understanding of how a variety of organisms are able to adapt to their changing environments at the community and ecosystem levels. Offered jointly by the Department of Biology and School of Geography and Earth Sciences, this program enables students to select courses according to their interests; to develop broad knowledge, and understanding of the linkages between biodiversity and environmental processes; and to apply these to questions of biological, biomedical, or environmental interests. This program prepares students for graduate studies, careers in industry or academic research laboratories.

ADMISSION NOTE
Students are strongly recommended to take CHEM 1A03 and 1AA3 in Level I.

Admission
Completion of any Level I program with a Grade Point Average of at least 5.0 including:

- 3 units from MATH 1A03, 1LS3
- 6 units BIOLOGY 1A03, 1M03 with an average of at least 6.0
- 3 units from ENVIR SC 1C03, EARTH SC 1G03 with a grade of at least C+
- 12 units from Science Level 1 Course List

See front for other course requirements

Program Notes

1. The Biology and Environmental Sciences program allows students (especially those focused on ecology and conservation) to choose Biology and Environmental Science courses that reflect their own interests. Students are strongly encouraged to discuss their course selections with an academic advisor in the Department of Biology or the School of Geography and Earth Sciences.

2. Prerequisites for upper year courses must be checked carefully when selecting courses in Level II. Biochemistry and Organic Chemistry prerequisites exist in many upper year biology courses. Students are encouraged to take six units from CHEM 2E03, 2OA3, 2OB3, 2OC3, 2OD3, 2OG3.

3. Students interested in completing a thesis may take one of BIOLOGY 4C12 A/B S, 4F06 A/B S or EARTHSC 4MT6 A/B in Level IV, subject to meeting the prerequisites. Students considering graduate studies are recommended to complete a thesis course.

4. Only one of BIOLOGY 4C12 A/B S, 4F06 A/B S or EARTHSC 4MT6 A/B may be completed as part of the program requirements. Completion of EARTHSC 3RD3 in Level III is required preparation for EARTHSC 4MT6 A/B.
